## 3 Powerful GPT Tools to Guide You—Anytime, Anywhere

Designed by Layered Education to empower paraeducators, co-teachers, and families in real time.

**LE** *Co-teaching coach GPT*

The co-teaching partner you've always needed! This GPT helps general and special education co-teachers take district-mandated lessons and turn them into co-taught lessons using models like station teaching, parallel, and alternative teaching.

**Use it to ask:**

- How do we co-teach this ELA lesson from our curriculum?
- Can you give station teaching ideas for this history topic?
- Are there two co-teaching model options for this math lesson?
- How do we move beyond one teach, one assist?

**How it helps:**

- Gives you 2-3 model options per lesson
- Breaks down roles and grouping
- Offers quick versions and leveled-up ones
- Builds confidence without extra coaching time

**Disclaimer:** I am an AI Coach, not a licensed teacher. Use with professional judgement.

**LE** *My Sped Advocate GPT*

Your personal special education guide, built for families. This GPT breaks down Federal and state special education and 504 laws in parent-friendly language. Designed to empower you with clear info, direct code citations, and next steps.

**Use it to ask:**

- What are my rights if the school won't evaluate my child?
- Can I get an IEP for ADHD?
- What's the difference between an IEP and a 504?
- Where is the special education law in my state?

**How it helps:**

- Translates legal jargon
- Gives quotes from laws
- Offers next steps
- Works for all 50 states

**Disclaimer:** I am not a lawyer. This is general guidance, not a substitute for district policies or supervision.

**LE** *Parapro Coach GPT*

Your on-demand paraeducator support system. This GPT gives you real-time ideas and scripts to support students academically, behaviorally, and socially while staying firmly in your role.

**Use it to ask:**

- What do I do when a student shuts down?
- How can I support a student with ADHD?
- How can I help during reading without reteaching?
- How do I redirect a student who is off task?

**How it helps:**

- Offers scripts and easy strategies
- Shows sample job duties
- Builds confidence in working with all students
- No training required
